Pavel Ravits
React developer

...seeking **collaboration** with **passionate** developers

Background

I am a Full Stack **web & mobile** developer that specializes in **Front-End, React** and state management.
Have been developing for **3 years in Web and React ecosystem**, since switching from Electronics Engineering and Embedded C Programming.
Programming since age 13.
In your team, I will be the positive, calm and attentive guy.

A little about my coding practice
- Practice code optimization and refactoring
- Adhere to **DRY and KISS** software principles
- Separate Business logic from the view
- Use latest javascript es6
- **Always learning**, expanding knowledge (blogs, books, newsletters, medium, dev.to)
- Trying new things, keeping up with the advancements in Javascript, React and Cloud
- **Excited** about web development.
- **Great as solo and in a team.**
- Great at solving problems by myself but easily ask for help.

Selected Experience

2017 - today   **React Full Stack Web Developer**
                 Freelance at Xlucidity

- Full Stack desktop and mobile Apps built from requirements to production.
- **Next.js SSR and React single-page applications** using latest CSS-IN-JS technology
- React Native mobile apps using Javascript, Typescript, and Mobx.
- **Worked in a remote team**, using Clojurescript, Javascript, Node.js, AWS Lambda, Dynamodb, Postgresql and **part time managing**.
- IOT - internet-connected devices
- *More details on my website*

2003 - 2016   **Software & Electronics engineer**
                At Syqe Medical / Startups / Freelance

- Embedded Software - C
- Board design (Altium)
- Digital and analog
- Audio and IOT and medical applications
- Layout

Education

1996 - 2003   **BA.Sc. Electronics, Computing and Communication Engineering**
                Technion - Israel Institute of technology

Skills

- Build Server/Client applications
- React, React Native
- JavaScript, Typescript, ClojureScript, C
- Redux, Mobx
- PostgreSQL, DynamoDB, MongoDB, GraphQL
- Headless CMS - DatoCMS
- Node, Express, Meteor
- AWS Lambda
- Next.js, SSR, Now v2, Microservices, Serverless
- SMS, Emails, Authentication, PayPal API
- HTML, CSS, SCSS, CSS in JS, Emotion, Styled-System
- Webpack, Traefik, Docker, Service workers
- Development / staging / production setup

Areas of Interest

- Front-End, UI
- Distributed Software
- Cloud
- Blockchain DAPP

In my free time

- Doing sport and meditation
- Learning new staff

Spoken Languages

- English - Fluent
- Hebrew - Native
- Russian - Native

Tools

- Linux, Windows, Mac
- VSCode, Webstorm
- Eslint, Prettier
